Add schedule

!!!! IMPROVE USABILITY !!!! - MORE OPTIONS LIKE OUTLOOK...FOR EXAMPLE FIRST SAT OF EVERYMONTH ETC... THIS IS OUR POINT OF DIF-

ability for LOCATION MANAGER to add a note regarding the schedule which will be tagged to the request

ABILITY TO LOCK SCHEDULES

last LOCATION MANAGER to edit this schedule to be noted

LOCATION MANAGER Schedules - step 4

items such as change profile details,
email, contact details etc

LOCATION MANAGER meters

OPEN TO SUGGESTIONS
from designer

please refer to “Feedback - Meter Tab” for requirements in this section.

PLEASE NOTE:
The data display design in the “Feedback - Meter Tab” is NOT to be used.

As per previous emails regarding data visualisation we would like a more innovative design approach
see left <<<<

LOCATION MANAGER LOGS

OPEN TO SUGGESTIONS
from designer

>>>> PLEASE add a history download for managers reference... for example... date range, day, weekly, monthly, yearly. download in csv

>>>>>> some of the logs have been written with excessive code for a location manager... for example Device #2 edited - name = 'Zone 2 - Minter Ellison (Managers)', type = 'ac', offset_start = '0', offset_end = '0', edited = '1395037118' - would it be possible to filter out this type as it is reserved for site sync admin - mostly the facility manager will be looking for log in log off, request by who date and time for what

>>>> options to filter data by date, tenant etc would be good in addition to the search option

LOCATION MANAGER RESOURCES

OPEN TO SUGGESTIONS
from designer

- >>>remove DCU from this location manager view.
- >>>please add a dcu network status with icon green or red
- >>>plus add a status colour as per previous design for status on each device... green active grey off red fault
- >>> add filtering for this page as per tags etc
